NEWSLETTER 3

2019-1-FR01-KA204-062980

The FIT4BLUE - Fishing Tourism for Blue Economy consortium has been concluded the e-course for trainers/mentor and for low-skilled/low-qualified fishers

FIT4BLUE consortium has developed during 2021 two new Intellectual Outputs:

IO1. E-course for adult trainers/mentor, to support young adults in developing new enterprises in the maritime sector, as well as to support fishermen, shellfish farmers for diversification in their activities and to preserve coastal cultural heritage and "know-how".

IO2. E-course for young adults/fishers, to proposed new and innovative educational paths of entrepreneurship in the Blue Economy, using an integrated approach based on EnterComp in order to provide customized training.

The new documents produced (IO1 and IO2) were revised and translated by the partners into all the languages of the consortium (Spanish, French, Italian and Greek).

Next January the Fit4blue consortium will meet again in person in Greece in order to carry out some testing activity on the training materials produced (C1 event – 3 days) and in order to do the next project meeting (2 days). During the last year and a half, the partners have held a total of 13 online meetings to coordinate the development work of the project.

Dissemination activities also continued during this year. On September 5, Grigoris Chatziantoniou representing IDEC SA as project manager for FIT4BLUE project in Greece, and Mr. George Lourdis, co-founder of the Platform: Fishing Trips, met on the beautiful greek island of Karpathos, at an event organized by the Municipality of Karpathos and the Federation of Dodecanese Societies of Athens-Piraeus with subject the Development of Fishing Tourism in the area. The European program "FIT4BLUE - Fishing Tourism for Blue Economy" was presented there, as well as the financial opportunities offered by the new LEADER."

Co-funded by the Erasmus+ Programme of the European Union
